PROFESSIONAL SUMMARY

As a certified data scientist and seasoned financial services professional, I bring a proven track record in business development, data-informed strategies, and institutional financial consulting. Recognized for my analytical and ethical leadership, I've partnered with international organizations across multiple sectors to drive growth. Skilled in data science, I combine technical expertise with strategic thinking and an ethical approach. Committed to social responsibility, I seek to make transformative contributions to forward-thinking firms by leveraging data-driven insights for revenue gains and inclusive innovation.

AREAS OF EXPERTISE

Agile & Project Leadership • Client Relationship Management • Data-Informed Decision Making • Market & Competitive Intelligence • Spanish Fluency • Stakeholder Collaboration • Strategic Business Development • Proficiency in Data Science

HIGHLIGHTS

- Led a cross-divisional Business Intelligence Team across multiple countries, enhancing client relations through targeted regional market data. Contributed directly to \$60 billion in North American sales during the COVID-19 pandemic by delivering vital reports to 850+ clients across nine industries.
- Published an article on Medium, "[The Evolution of AI: Your Super-Intern Might Stick Around Longer than the Summer](#)," exploring AI in the financial services industry. The article received high engagement, with 100 views within 30 days.
- Pioneered a Generative AI model, "AL-I," focused on suicide prevention for LGBTQ+ youth. Designed business plan and blueprint for creating culturally sensitive spaces on social platforms, winning the ALPFA PRIDE+ Innovation Challenge hosted by Accenture and judged by leaders from Meta, Citi, XR Terra, and Accenture.

DATA SCIENCE PORTFOLIO

[Time Series Forecasting Application](#)

- Created an interactive sales forecasting dashboard catering to diverse industries such as Energy, Construction, Telecommunications, and Oil and Gas.

[Pricing Recommendation Application](#)

- Developed an innovative app catering to wire and cable manufacturers, enabling precise product pricing through machine learning techniques.
